Software Items

THESE ITEMS ARE NOT FOR DUPLICATION

These CDs and DVDs are produced in “PDF with Image” format. This means that the original scanned material appears on the screen as it originally looked – it is an exact picture of the original page in the printed copy, yet the files are searchable for words or phrases. While Optical Character Recognition (OCR) is not 100% accurate, there is a very high degree of accuracy, and the text is quite searchable with Adobe Reader (a free download from www.adobe.com/products/acrobat) with some limits. IMPORTANTLY, proximity searching across, for example, all 51 books of Writings of J. N. Darby (including the New Testament with critical apparatus) as well as searching individual books is possible. Non-English text such as Hebrew and Greek will appear on screen but is not searchable. Searching instructions and examples are included on the disk in a printable file.
